students) Ideal gas law P-V-T calculations. Acid-base and other non-redox titration questions. Redox volumetric titration questions. molecular equilibrium problem solving. partition and solubility product calculations

CHEMICAL CALCULATIONS explained, solved revision problems

...

It was written to cover the calculations in UK AS and A level chemistry syllabuses (roughly for ages 16 - 18 years), but chemistry calculations are just the same wherever in the world you are working. Each type of calculation is introduced in a very gentle way, making no great assumptions about your chemistry knowledge or maths ability.
